About RKS Business Services

RKS was established in 1992 to assist businesses with their specialized computer software needs. Our emphasis is on personal service to our clients.

Support

- Technical support is available for the software listed to the right.
- Support for software is available by phone, on-site or via broadband internet.
- Our policy is to charge for the actual time spent in providing telephone or on-site consulting services, payable upon completion.
- We also can help companies still using older versions of the programs.
- MasterCard, Visa and Discover credit cards are accepted.
- We work with you at your level of computer expertise.

Sales

We are a certified reseller for each of the products listed to the right. We continually attend training seminars to keep up with current versions.

- RKS sells new programs or upgrades for your current software. Any manufacturer's sale prices are passed on to you.
- We can supply POS hardware – touch screen monitors, all-in-one units, credit card swipes, bar code scanners, cash drawers, receipt printers & more.
- We also can supply imprinted checks, invoices, envelopes and other forms.
- We can recommend credit card/gift card payment processing companies that work with your software. Approve the credit card payment while in your program.

Experience

- RKS works with a network of nationwide consultants, as well as the software manufacturers, to help resolve problems and create solutions for your specialized needs.
- Over 30 years as Controller and Consultant for small businesses, providing the right business software for your company.
