

Sage BusinessVision News

Sage BusinessVision "Sunsetted"

In the past year Sage announced that Sage BusinessVision will be "Sunsetted", meaning they will not be making any further changes to the program, nor supporting the existing BusinessVision users. They recommended converting to Sage 100 or Sage 300.

However, at the 2015 annual Sage conference last summer, they announced a slight change in the "Sunsetting" plan. They will not be making any further changes to the program, but do plan to continue supporting the existing users.

In order to obtain support from Sage for your BusinessVision software, you will need to be on a current business care plan. At this time we do not know how long this policy will continue.

RKS BusinessVision Policy

RKS will continue to help clients who are currently using Sage BusinessVision with their program problems as long as we are able.

Spire Systems Accounting Software

There is an exciting accounting program that has all of the features of BusinessVision and a lot more. **Spire Systems** has been developed by a company with many years of experience in working with and developing additional BusinessVision modules. They have created extra modules and enhanced the features which will provide all the information you need to run and grow your business.

Changing accounting systems is a challenging time for any company. Spire Systems makes it easier by providing a conversion routine that will transfer customers, vendors, products and all the transactions history. Not all accounting programs include the transactions in their conversions. And the transaction history of a company is vital for a successful conversion.

For more information about Spire Systems, check out their web site at www.spireystems.com or give us a call.

RKS Now a Spire Systems Dealer

RKS is proud to announce that we are an authorized reseller for Spire Systems. If you are a current Sage BusinessVision user, we recommend converting to Spire Systems.

Give us a call and we will be happy to discuss Spire Systems software with you and how it can benefit your business. We can arrange a demo of the product so you can see exactly how it works.

We look forward to helping Sage BusinessVision users switch to this progressive accounting program.

Questions???

If you have any questions about Sage BusinessVision or Spire Systems, give us a call at **419-882-5382**. We'll do our best to get the answers.
